2. CAPITAL STRUCTURE

2.1. Amount of ordinary, authorized and conditional capital as at 31.12.2017

Ordinary capital

The share capital of Kudelski SA is CHF 435 118 040. It is divided into 49 759 755 bearer shares with a nominal value of CHF 8.00 per share and 46 300 000 registered shares with a nominal value of CHF 0.80 per share. Each share confers the right to one vote. All shares are fully paid up.

Articles 6 to 7 of the articles of association of Kudelski SA, which can be found on the company's website at the following address: https://www.nagra.com/sites/default/files/Statuts_KSA_15-02-2017.pdf also contain an authorized capital clause and two conditional capital clauses (see section 2.2 below).

2.2. Specific information concerning authorized and conditional capital

Authorized capital

According to Article 7 of the articles of association of Kudelski SA, the Board of Directors is authorized to increase the share capital in one or more stages until 22nd March 2018 by a maximum amount of CHF 32 705 312 (representing 7.52% of the existing share capital) through the issuance of 3 768 164 bearer shares with a nominal value of CHF 8.00 per share and 3 200 000 registered shares with a nominal value of CHF 0.80 per share to be fully paid up. The issuance price, the nature of the contributions, the date from which new shares shall give entitlement to dividends and other modalities of any share issuance shall be determined by the

Board of Directors. The preferential subscription rights of shareholders may be excluded and allotted to third parties by the Board of Directors with a view to acquiring companies or parts of companies or in order to finance the whole or partial acquisition of other companies in Switzerland or abroad. The statutory restrictions on the transfer of shares applies to new registered shares issued on the basis of the authorized capital.

Conditional capital

The articles of association of Kudelski SA (Articles 6 and 6bis) provide two clauses related to conditional capital for a total amount of CHF 84 601 696 (19.45% of the existing share capital) structured as follows:

- according to article 6 of the articles of association (conditional capital for option or subscription rights), the share capital of Kudelski SA can be increased by a maximum amount of CHF 4 432 008 (1.06% of the existing capital) through the issuance of a maximum of 554 001 bearer shares with a nominal value of CHF 8.00 per share, to be fully paid up, as and when the option rights or share subscription rights which will be granted to the employees of the company and of affiliated companies are exercised. There are no preferential subscription rights for shareholders. Share option or subscription conditions are determined by the Board of Directors. Issuance at a price below market conditions is authorized; and
- according to article 6bis of the articles of association (conditional capital for conversion rights), the share capital of Kudelski SA can be increased by a maximum amount of CHF 80 000 000 (18.39% of the existing capital) through the issuance of a maximum of 10 000 000 bearer shares with a nominal value of CHF 8.00 per share, to be fully paid up, as and when the conversion rights related to the convertible bonds of the company or its subsidiaries are exercised.

There are no preferential subscription rights for shareholders. The preferential subscription right of shareholders to the issuance of a convertible bond may be limited or excluded by decision of the Board of Directors on valid grounds, namely (a) if the convertible bonds are placed primarily in markets outside Switzerland, or (b) if the issuance proceeds contribute (i) to the financing or refinancing of acquisitions of companies or firms, (ii) to the financing of other strategic investments

of the Group, or (iii) to financing the redemption of all or part of convertible bonds previously issued by the company or its subsidiaries.

If the convertible bond is not offered preferentially to shareholders, (a) the convertible bonds must be sold to the public under market conditions, (b) conversion rights must be exercised within a period of seven years from the day of issuance of the respective bond, and (c) the conversion price must be at least equivalent to market conditions at the time of the issuance of the bond.

As of December 31st, 2017, Kudelski SA had issued 21 211 bearer shares on the basis of conditional capital for option or subscription rights. These new bearer shares will be entered in the commercial register in the first three months of 2018, in accordance with Article 653h of the Code of Obligations. As of December 31st, 2017, the available amount of contingent capital for option and subscription rights was therefore CHF 4 432 008, representing a maximum of 554 001 bearer shares with a par value of CHF 8.00 each.

As at December 31st, 2017, Kudelski SA had not issued any option rights within the meaning of article 6 of the articles of association and no conversion rights related to debt obligations within the meaning of article 6bis of the articles of association. The conditional capital for option or subscription rights under article 6 of the articles of association may, however, be used in the context of the employee share purchase plan (see section 2.7 below).

2.6. Limitations on transferability and nominee registrations

Shares of Kudelski SA which are listed on the stock exchange are issued to the bearer. For these shares, the exercise of shareholder rights does not depend on an entry in the share register. There are therefore no statutory restrictions on their transfer or the exercise of shareholder rights through nominees.

The registered shares of Kudelski SA are not listed on the stock exchange. As of December 31st, 2017, they were all owned by the Kudelski "Family Pool" (see section 1.2 above). Pursuant to the articles of association of Kudelski SA, subject to the provisions of the Swiss Federal Act on Intermediated Securities, registered shares may be transferred upon delivery of the endorsed share certificate, subject to the approval of the Board of Directors and registration in the share register.

Article 9 of Kudelski SA's articles of association allows the Board of Directors to refuse the approval of the transfer of registered shares in one or more of the following cases:

a) If there exists good cause within the meaning of Article 685b, paragraph 2, of the Swiss Code of Obligations, i.e. if admission of the acquirer as a shareholder would be incompatible with the objective of Kudelski SA or could jeopardize the economic independence of the company. This would in particular be the case if the acquirer could prejudice the company directly or indirectly, or if transfer of the shares could jeopardize the existing majorities.

b) If the company offers the seller of the shares to acquire the shares at their fair value at the time of the request for its own account, for the account of other shareholders or for the account of third parties.

c) If the acquirer does not expressly declare that he is acquiring the shares in his own name and for his own account.

Article 9 of the articles of association also provides that if the shares are acquired by inheritance, division of an estate, marital property rights or as a result of debt enforcement proceedings, the company may only refuse its consent if it offers to acquire the shares at their fair value.

In the event of a dispute, the fair value is determined by the court having jurisdiction in the place where the company has its registered office. The company bears the costs of such valuation. The purchase offer is deemed accepted if the acquirer does not reject it within one month of having been informed of the fair value.

2.7. Convertible bonds and options

Convertible bond

The Kudelski Group has no outstanding convertible bond.

Options

The company has no outstanding options.

Each participant can subscribe annually to this plan up to a maximum amount of 7.7% of his/her gross annual salary.

The share purchase price is the closing price of the Kudelski SA share listed on the SIX Swiss Exchange on the day of subscription with a discount of up to 42%. However, the shares are subject to a three-year blocking period from the date of purchase.

A chart showing employee participation in this plan for the year 2017 can be found in note 38 to the consolidated financial statements.

3.2. Other activities and vested interests

Please refer to the individual profiles of Board members under section 3.1 above.

3.3. Articles of association provisions on the number of permitted activities

In compliance with section 18 of the articles of association, members of the Board of Directors may exercise no more than five mandates in senior management or administrative bodies of third-party legal entities whose shares are listed on a stock exchange and no more than ten mandates in other third-party legal entities. They may also exercise up to ten mandates in senior management or administrative bodies of non-profit or charitable third-party legal entities.

A company is not considered a third-party legal entity according to this provision, and is therefore not taken into account when calculating the maximum number of mandates mentioned above, if:

1. it controls another company directly, indirectly or jointly with third parties for which a mandate is being carried out, or is controlled by such company; or
2. it does not have to be entered in the Commercial Register or in a corresponding foreign register (e.g., corporations and public entities, non-profit associations, religious foundations or family foundations); or
3. the mandate is carried out at the company's request.

Mandates carried out for legal entities directly or indirectly controlled by a single individual or legal entity, or by a single group of individuals or legal entities acting in concert, or at the request of one of these individuals or legal entities, are deemed to constitute a single mandate for the purposes of this provision.

Members of the Board of Directors must notify the Chairman of positions they hold at third-party legal entities.

3.4. Election and terms of office

The Board of Directors is comprised of between one and ten members. Board members are elected at the Annual General Meeting for a period of one year. The term of office ends on the day of the next Annual General Meeting. All members may be reelected. The year of the first election as well as the end of term of office for each member are mentioned under section 3.1 above.

The articles of association of Kudelski SA do not contain any special provisions regarding the election of the Chairman.

3.5. Internal organization structure

The Board of Directors performs inalienable and nontransferable duties prescribed by the law (see section 3.6 below) with the support of its three committees: Audit, Strategy, and Compensation and Nomination. The internal organization of the Board of Directors is defined in the articles of association and in the Board Regulations. The regulations are available

on request to the Corporate Secretary of the Kudelski Group by calling +41 21 732 01 27 or by post at the following address: 22-24 route de Genève, 1033 Cheseaux-sur-Lausanne.

3.5.1. Allocation of tasks within the Board of Directors

Except for the Chairman who is elected at the Annual General Meeting, the Board of Directors constitutes itself and nominates its Deputy Chairman. The Board of Directors may elect that one of its members will exercise the function of Chief Executive Officer of the company. If the Chairman is elected to exercise the function of Chief Executive Officer, the Board of Directors shall also elect a “Lead Director” from among its members. The management of the company is delegated in full to the Chief Executive Officer or to the Executive Board. A Corporate Secretary may be appointed and is not a member of the Board of Directors.

The Chairman of the Board of Directors leads the discussions at the Annual General Meeting, ensures that the minutes are taken, is in charge of the protocol and directs meetings of the Board, informs the Board members of the development of business and the half-yearly accounts, represents the company in dealings with administrative and/or judicial authorities subject to mandates entrusted by the Board of Directors to a third party, to an Officer or to one of its members.

The Deputy Chairman may convene a meeting of the Board of Directors. He chairs the Board of Directors and the General Meeting in the absence of the Chairman.

According to Article 25 of Kudelski SA’s articles of association, the Board of Directors may delegate the management of the company to the Chief Executive Officer, unless otherwise stipulated by the law. In his management activities, the Chief Executive Officer acts upon the directives of the Board of Directors and safeguards the interests of the company. He also makes a report at each meeting of the Board of Directors covering the essential aspects of the current business situation.

In the Group’s current structure, Mr. André Kudelski holds the positions of Chairman of the Board of Directors and Chief Executive Officer. This situation guarantees a rapid and fluid information and decision-making process, enabling the company to respond operationally and strategically at the pace required by developments in the sectors of activity pursued by the Group. As the functions of chairman and Chief Executive Officer are held by the same person, the Board of Directors has appointed Claude Smadja as Lead Director.

The Lead Director ensures the independence of the Board of Directors vis-à-vis the Chairman and Chief Executive Officer as well as the management of the company; he also chairs the Board of Directors in cases of conflict of interest involving the Chairman and Chief Executive Officer. The Lead Director may autonomously convene and direct a meeting of the independent members of the Board of Directors if the interests of the company require independent deliberation. He ensures a performance appraisal process for the Chairman of the Board of Directors and the Chief Executive Officer.

3.5.2. Members list, tasks and area of responsibility for each committee of the Board of Directors

With the exception of the Compensation and Nomination Committee, whose members are elected individually by the Annual General Meeting, the Committees are constituted by the Board of Directors which appoints their members and chairpersons. The Board Committees meet as often as is necessary. The Board of Directors delegates to its committees supervisory and preparatory tasks within their sphere of competence, subject to the provisions of the articles of association. The Committees report on a regular basis to the Board of Directors. Committee reports are used as a decision-making tool by the Board of Directors.

Audit Committee

The Audit Committee consists of at least three non-executive members of the Board of Directors. At least one Committee member must have proven experience in the field of accounting. All members have knowledge or practical experience in the field of financial management.

The Audit Committee meets at least three times a year. The Audit Committee may at any time request detailed risk analyses of the Group’s various sectors of activity as well as of specific fields of its choice.

The Committee calls on experts outside the Board of Directors where this is deemed necessary for the successful completion of its tasks.

The Audit Committee supervises the company’s internal financial reporting process and ensures its integrity, transparency and quality. It ensures that accounting methods comply with applicable regulations and constantly updates and provides financial information to the company.

It assesses the quality of work of external auditors. The Audit Committee reviews the auditing fees, ensures execution of the yearly audit plan and assesses the efficiency

| | AUDIT COMMITTEE | STRATEGY COMMITTEE | COMPENSATION AND NOMINATION COMMITTEE |

of the auditors in identifying and solving issues related to the Group or to the financial statements. The Audit Committee provides appropriate recommendations to the Board of Directors concerning renewal of the engagement of external auditors or, where necessary, their replacement. The Committee ensures that the recommendations of external auditors are addressed and safeguards their independence.

The Committee provides regular reports presenting its recommendations to the Board of Directors concerning the adequacy, efficiency and veracity of accounting processes.

Strategy Committee

The Strategy Committee is composed of at least four members of the Board of Directors, including the Chairman and Deputy Chairman. It meets at least twice a year.

The purpose of the Strategy Committee is to review and define Group strategy. It develops strategic options with a view to ensuring the long-term enhancement of the Group's competitive position and its shareholder value. To this end, the Strategy Committee monitors market trends and the Group's competitive position, drafts future development models and oversees the Group's development by means of investments, divestments and reorganization. To define strategic choices, the Strategy Committee relies upon information supplied by the management, the members of the Board of Directors and, if deemed necessary, by external advisors.

The Strategy Committee periodically reviews the balance between the Group's objectives, its structure and the organization in place to achieve strategic objectives. The Strategy Committee makes proposals to the Board of Directors, which has ultimate decision-making power on strategy.

Compensation and Nomination Committee

The Compensation and Nomination Committee is composed of at least three non-executive members of the Board of Directors, who are elected individually at the General Meeting upon recommendation of the Board of Directors. It meets at least twice a year.

The Compensation and Nomination Committee assists the Board of Directors in setting up and periodically reviewing the remuneration policy of the company, as well as its guidelines and performance criteria. The Compensation Committee is responsible for setting the remuneration of each member of the Board of Directors and the Executive Board. An exception to this principle is the remuneration of the members of the Compensation and Nomination Committee, which is fixed by the Board of Directors itself. The Compensation and Nomination Committee also assists the Board of Directors in making proposals at the General Meeting regarding the remuneration of the members of the Board of Directors and of the Executive Board (refer to section 5: Compensation, shareholdings and loans). The Committee presents proposals to the Board of Directors concerning the appointment of Board members to be submitted to the General Meeting. At the request of the Chief Executive Officer, it examines applications for management positions and may if it wishes meet with candidates.

3.5.3. Working methods of the Board of Directors and its Committees

The cooperation and allocation of competencies between the Board of Directors and its Committees are described in section 3.5.2.

The Board of Directors meets at least four times a year, but as often as is required for the proper conduct of business. In 2017, the Board of Directors and its Committees met as follows:

| | |
|---------------------------------------|---------|
| Board of Directors | 8 times |
| Strategy Committee | 3 times |
| Audit Committee | 3 times |
| Compensation and Nomination Committee | 2 times |

The participation of the members of the Executive Board to the discussion and decisions of the Board of Directors are described in section 3.7 below. Average attendance at Board meetings exceeded 92%. Meetings of the Board of Directors lasted on average four hours. Most Committee meetings lasted on average three hours.

3.6. Definition of areas of responsibility

Please see also section 3.5. 1 for details of the internal organization of the Board of Directors and the position of Chief Executive Officer.

Board of Directors

The Board of Directors:

- is responsible for the overall management of the company and issues all necessary directives;
- determines the organization;
- determines the organization of the accounting, financial control and financial planning systems as required for management of the company;
- appoints and dismisses persons entrusted with managing and representing the company;
- exercises overall supervision of the persons entrusted with managing the company, in particular with respect to compliance with the law, articles of association, regulations and directions given;
- 16 – prepares the Compensation report;
- compiles the annual report, prepares the Annual General Meeting and implements its resolutions;
- takes decisions on further capital calls with respect to shares that are not fully paid up (article 634a of the Code of Obligations);
- takes decisions regarding the assessment of an increase in capital and relevant changes to the articles of association (articles 651 para. 4, 651a, 652a, 652g, 652h, 653g, 653h of the Code of Obligations); and
- notifies the court in the event that the company is over-indebted.

Executive Board

The Board of Directors has delegated full management of the company to the Chief Executive Officer, subject to legal requirements and provisions of the above-mentioned internal organization structure. The Chief Executive Officer therefore coordinates the operations of the Group companies.

3.7. Information and control instruments vis-à-vis the Executive Board

Because of the nature of the industry, mechanisms for controlling Group management and information feedback systems are very important. The Kudelski Group has therefore put in place information and control instruments, at different levels, which it improves on a continuous basis. These instruments concern strategy, operations, finance, legal, intellectual property, human resources and information management.

Supervision

- The Chief Executive Officer submits a report to the Board members prior to each meeting outlining key aspects of the current business situation (key contracts, sales trends, market trends, human capital) for each Group entity and activity.
- Board members receive weekly or quarterly press digests concerning the Group, depending on the amount of relevant newsflow; they may also receive other informative documents concerning the Group and its entities, as well as a message from the Chief Executive Officer whenever the CEO deems it necessary.
- At least twice a year, members of the Executive Board are invited to present their activities to the members of the Board of Directors. Members of the Board of Directors may also ask questions directly to company executives as and when they see fit.
- At each Board meeting, if justified by the business situation and depending on the agenda, members of the Executive Board, top managers of the companies of the Group or in charge of specific areas as well as outside experts are invited to present specific subjects to the Board of Directors.

Operations and strategy

- Executive Board members coordinate their action and take decisions related to the management of the Group during the “Executive Board Committees”, the frequency and duration of which are tailored to the needs of the Group. This committee generally met once every two weeks for an average of 3 hours in 2017.
- Management of the iDTV division is supported by an “Executive Board Group Operations” committee composed of the Chief Executive Officer (CEO), the Chief Financial Officer (CFO), the Chief Operating Officer (COO), as well as senior members of the iDTV division. This committee meets twice a month for 2.5 hours and reviews in particular selected relevant topics for the iDTV division. In addition, the members of the Executive Board and the General Counsel, Head of Legal Affairs, the Senior Vice President, Head of Human Resources, the Senior Vice President, Intellectual Property, the Senior Vice President Executive Affairs and the Corporate Secretary meet twice a month for at least thirty minutes as part of the “Executive Board Group Functions” committee to discuss relevant topics relating to these functions and not

directly related to operations. Finally, the synchronization between the Executive Board and the “Executive Board Group Operations” and the “Executive Board Group Functions” committees is achieved within the “Executive Board Group Management” committee which meets every month for at least one hour.

- Management of the Public Access division is supported by the Supervisory Board which includes a Kudelski Group Board member, the Chairman and CEO of the Group, the CFO of the Group and a non-executive member (currently, Mr. Charles Egli, a former Executive Board member) who is Chairman of this Supervisory Board. This Board supervises the whole division. The Supervisory Board meets at least four times a year for an average of 3.5 hours and reviews the specific and pertinent topics for the Public Access division. Senior Managers of the Public Access division establish regular reports for the Supervisory Board and, depending on the topics, are invited to take part in Board meetings.
- For certain specialized activities of the Group, ad hoc committees composed of a cross-disciplinary team of internal experts may be created to evaluate market, strategic, operational, legal and financial risks and opportunities. These ad hoc committees manage processes relating to the evaluation of such risks and opportunities, propose actions and monitor implementation of their decisions. There are several committees such as the security committee and innovation committee. Decisions, activities, information and comments arising from these committees are conveyed to the Executive Board members and other top managers of the Group as appropriate.

Finance

- The Controlling entity conducts regular financial and operational analyses intended to identify operational and financial risks throughout the value chain of the various activities of Group companies and proposes and coordinates necessary improvements and corrective actions. This entity makes available a platform of analytical services to the Executive Board and operational departments.
- Every month, the Controlling entity prepares a number of reports which are made available to the management. Those reports are then adapted and sent to each regional head and business unit with the corresponding analytical metrics. The reports include: a report providing an

overview of the Group’s profit and loss broken down by activity and showing profit trends and budget over-runs/shortfalls, with adaptations based on quarterly revisions of the annual forecast by entity, as well as their operational indicators; a sales report including region, client and sales type-specific analysis as well as their respective margins; a report on the operational cost trend broken down by cost center, a report on the financial development of key projects and a monthly and quarterly report on the cash-flow situation for the Group and for each segment for the current year and the coming year.

- In addition, the Group has an internal control system based on the COSO (Committee of Sponsoring Organizations of the Treadway Commission) reference system. This system aims at providing “reasonable assurance” as regards the performance and efficiency of operations, the reliability of financial information and reporting, and compliance with laws and regulations in force. A team is in charge of internal controls. The various processes are periodically reviewed and analyzed by the external auditors (PricewaterhouseCoopers SA).

Legal

- The Legal Department provides advice and consultation as part of the Group’s decision-making processes and as part of the activities of all Group departments in order to better mitigate and manage legal risks as well as to ensure appropriate levels of compliance with the Group’s policies.
- The Legal Department is involved with the negotiation and approval of contracts entered into by Group companies and maintains contract management and electronic archiving tools to ensure efficient tracking of contracts.
- The Legal Department is also responsible for overseeing litigation, government investigations and other regulatory matters for Group companies.

Intellectual Property

- The Intellectual Property Department is responsible for protecting, developing, managing and licensing the Group’s technologies and intellectual property portfolio. In connection with this responsibility, the Intellectual Property Department briefs senior management on operational and strategic matters in the field of intellectual property that impact Group activities.

Human Resources

- The HR Department is responsible for recruiting the talent necessary for the Group's needs, developing and promoting high performing employees and ensuring successions. In particular, it maintains a catalog of training tailored to the needs of the Group, managers and employees.
- The Human Resources Department is in charge of the processes and the implementation of performance evaluation tools related to the objectives of the group, the different departments and each employee.
- In respect of the Group's values, the Human Resources Department advises employees and senior managers from all Group departments on a daily basis in matters relating to human resources.

Information Management

- 18
- The Corporate IT department has developed and implemented a series of policies and procedures concerning IT security (for the use of computer systems, data protection, monitoring, systems management back-up, etc.) to set appropriate risk limits and to provide a reliable Information System environment.
 - The Corporate IT department regularly reviews the infrastructure of its systems to ensure their evolution in accordance with the new standards and rules that apply to them.
 - The information systems infrastructure is monitored 24/7 by the teams of the Cyber Fusion Center of Kudelski Security.

Main identified risks and treatment

The main identified risks are listed below. The various information and control instruments of the Board of Directors with respect to the Executive Board described above in section 3.7 are used and allow monitoring of each risk appropriately and according to its criticality for the Group. The communications of the Chairman and Chief Executive Officer to the Board of Directors ensure regular and appropriate information flow and the activities of the committees of the Board of Directors guarantee appropriate supervision by the members of the Board of Directors of the decisions of the Executive Board.

- The business segments in which the Kudelski Group's iDTV division operate (conditional access, UEX, etc.) are evolving rapidly and constantly requiring the Kudelski Group to offer products and services that are flexible enough to respond quickly to the commercial and technological changes of the digital media industry.
- The Group provides its products and services in many countries with different currencies (payments are made mainly in US dollars and Euros). The Group's suppliers are paid in different currencies. Fluctuations in foreign exchange rates may affect the Group's results of operations and financial position.
- The Kudelski Group's results could be impacted if the security provided by its products is compromised and if the Group fails to put in place adequate countermeasures.
- The operating results and growth of the Kudelski Group could decrease if the customer base of the Group's customers does not continue to increase.
- The Group's success depends on its ability to attract and retain qualified personnel. Competition for hiring and retaining highly qualified personnel is high.
- A leak of confidential, proprietary or personal information held by the Group could adversely affect the Group's activities.
